I would like to recommend the "Journal for Geometry and Graphics" (ISSN 1433-8157) for acquisition. I have thoroughly examined this publication and find it to be eminently useful and an exceptional addition to our library. I strongly recommend subscription to this journal (two issues per volume, one volume per year at a cost of EUR 70,-- including surface mail shipment) for the following reasons:

(Tick the recommendations that apply)

- .. The scope of the journal is highly relevant to our research,
- .. The scope of the journal is highly relevant for our teaching activities,
- .. The Editorial Board members are highly recognized scientists in the field,
- .. The journal will fill a gap in our library,
- .. The journal is interdisciplinary in nature and will be also of interest to other departments.

Please contact the publisher for a subscription or a sample copy
